

Star Words:

 structure	 stable	 construct	 Model	 build
 join	 design	 evaluate	 combine	 structure

My goals for DT this term:

Processes

- I can create a simple design for my product
- I can use pictures and words to describe what I want to do
- I can select from and use a range of tools and equipment to perform practical tasks - cutting, shaping, joining and finishing
- I can use a range of simple tools to cut, join and combine materials and components safely
- I can build structures, exploring how they can be made stronger, stiffer and more stable

Evaluation

- I can talk about my design as I develop it and identify good and bad points
- I can say what I like and do not like about items I have made and attempt to say why
